

Pressure transducers DMU 03 Industrial version

Benefits

- For low pressure ranges
- Versions for relative pressure and absolute pressure
- Excellent long-term stability
- Ex version (optional)
- Option SIL 2

Application

For electronic pressure measurement in mechanical and plant engineering as well as process engineering applications. With flush diaphragm, the pressure transducers are also suitable for use with viscous, highly viscous media.

Description

Pressure transducers convert physical pressure into an electrical signal proportional to the pressure. DMU 03 is equipped with an oil-filled piezo-resistive silicon measuring cell. DMU 03 has safety integrity level SIL 2 (IEC 61508/61511).
